

## JFD Standard Evolution #4

### Single Engine Reverse Lay using Gated Wye

E1 stop the engine and remove the equipment to make two (2) 150', 2 1/2" operational handlines.

- 300' of 2 1/2" hose
- Two (2) 2 1/2" nozzles
- SCBA's for crew
- 5" to 2 1/2" gated wye

E1 reverse lays 5" LDH to the hydrant.

E1 make appropriate connections at the hydrant and supply the handlines at the scene.

E1 operate the line(s) at proper pressure and flows.

#### Target Times

2-person crew 7 minutes, deploy 1 line, flow 1

3-person crew 6 minutes, deploy 2 lines, flow 1

4-person crew 5 minutes

5-person crew 4 minutes
